

To whom it may concern,

Dr. Gabrielle Jones has presented more than once on the topic of substance use for First 5 Alameda County. Most recently, she presented *Introduction to Substance Use Treatment in Community Settings* in February of 2022.

Dr. Jones is a joy to work with, professional, knowledgeable, and responsive to the needs of our attendees. We highly recommend Dr. Jones as a presenter.

Examples of feedback we received from Dr. Jones' trainings:

- 96% agreed or strongly agreed with the statements "The trainer was knowledgeable" and "The trainer used effective teaching techniques"
- "I loved how clear Dr. Jones was! She presented incredibly useful and practical information, and she did so in a way that was very digestible. I love that she answered everyone's questions and took us through so many different facets of addiction. This was incredible! I also really loved how she gave us actual phrasing to use with clients. A lot of trainings leave out practical knowledge, and this training was full of it!"
- "The presenter seemed confident and knowledgeable. All questions were answered in a clear and respectful matter."
- "Ms. Jones made this an interesting topic, and I appreciated the culturally responsive aspects of the training"
- "I have already altered some questions on our phone screen as a result [*of the training*]"

Sincerely,

A handwritten signature in black ink that reads "Lea Yancey".
